INTRODUCTION

Established in April 2010, **SEPTUM Technologies & Services**, is involved in Software Development, Website Development, IT enabled Services, e-Commerce & Outsourcing and Industrial Training to its valuable customer and associates. Based in Dhanbad Jharkhand, SEPTUM Technologies delivers high end customized software products and websites.

SEPTUM Technologies & Services has been established after rigorous research on day 1st Apr 2010, with the aim of providing quality customized Software Solutions and Business Integration System. The combined efforts of its Software and Technical Division are focused towards bringing a cost effective, value added and complete one stop solution to the clients. Needless to say this instills in the client a greater degree of confidence in us.

We have access to local, national and international individuals with qualified technical skills. This ensures speedy delivery with a distinct reduction in time and expenses. Herein we work hard to maintain the scalability to meet the fluctuating needs of our clients.

Our Professional Support Division continuously strives towards upgradation of human resources to keep pace with the latest technological advancements. Our lateral organizational structure ensures percolation of ideas and their application at various levels.

SEPTUM is a leading organization to provide Software Development, Website Development, e-Commerce Solutions & IT enabled Services. We have a bench of Skilled & Proficient team to fulfill the need of our clients.

Our Philosophy involves working in close association with our prestigious clients by understanding their specific needs and providing solutions that enable them to cope with the present day's competitive and volatile business environment.
